INSTITUTIONAL LAND & BUILT-UP AREA ASSESSMENT REPORT

Field Inspection & Physical Measurement Record

REPORT REFERENCE IDENTIFIER
LIR-DEMO-2026-0082

ASSOCIATED APPLICATION ID
CX-DEMO-2026-001

TARGET INSTITUTION NAME
Meridian Institute of Technology

FIELD INSPECTION DATE
18 October 2026

1. SITE IDENTIFICATION & PREMISES LOCATION

An independent physical infrastructure assessment was conducted at the campus site registered to **Meridian Institute of Technology**. The site is located at Plot No. 42-B, Industrial & Educational Zone, Village Nardaha, Post Mandhar, Raipur, Chhattisgarh 493111, India. The objective of this survey is to verify ground physical spatial metrics for compliance records.

2. EXECUTIVE FINDINGS SUMMARY TABLE

The following exact spatial boundaries and physical structures were verified and recorded during the physical site survey conducted on 18 October 2026:

METRIC DESCRIPTION	INDEPENDENTLY RECORDED VALUE	MEASUREMENT STANDARD
Total Recorded Land Area	**4.2 acres**	Physical Field Boundary Survey
Total Recorded Built-Up Area	**3,850 square metres**	Architectural Plinth Measure

3. ASSESSMENT METHODOLOGY & SCOPE

The assessment team deployed standard physical measuring instruments, laser distance devices, and tape surveys to record external boundary perimeters and individual building footprints. The methodology comprised two key operational phases:

> **Phase A — Boundary Perimeter Tape Survey:** Ground physical verification of contiguous parcel boundaries along the northern and southern fencing lines.
>
> **Phase B — Built-Up Structure Plinth Verification:** Physical exterior measurement of all completed structural blocks, including main academic wings, administrative blocks, and operational workshop sheds.

FICTIONAL DEMO DATA — NOT AN OFFICIAL DOCUMENT | TECHNICAL AUDIT EVALUATION

4. DETAILED BREAKDOWN OF RECORDED BUILT-UP STRUCTURES

The recorded total built-up area of **3,850 square metres** is distributed across the following physical structural blocks on site:

STRUCTURE BLOCK NAME	FLOOR LEVELS	RECORDED AREA	PRIMARY USAGE
Block A — Main Academic Building	G + 2 Floors	2,100 sq.m	Classrooms & Labs
Block B — Administrative Wing	G + 1 Floor	800 sq.m	Offices & Staff Rooms
Block C — Engineering Workshops	Ground Floor	650 sq.m	Heavy Machinery Labs
Block D — Amenities & Cafeteria Shed	Ground Floor	300 sq.m	Student Amenities
Total Physical Built-Up Space Verified		**3,850 square metres**	**Measured Plinth**

5. ASSESSOR OBSERVATIONS & NOTES

1. The physical plot boundary encompasses a contiguous area measuring exactly **4.2 acres**.
2. Unbuilt open ground area measures approximately 3.25 acres, set aside for future expansion, sports grounds, and internal access roads.
3. All structural measurements reflect completed civil constructs ready for occupancy as of the inspection date (18 October 2026).

MANDATORY LIMITATIONS & DEMO MATERIAL NOTE
This document is a synthetic demo report produced solely for software testing, automated document auditing comparison, and text highlighting evaluation in the ComplianceX system prototype. It does not establish actual legal land ownership, revenue survey accuracy, municipal sanction validity, or formal regulatory clearance for the subject property.

6. ASSESSOR CERTIFICATION & SIGN-OFF

FIELD ASSESSOR SIGNATURE
